CHAIRMAN'S MESSAGE

Dear Stakeholders,

As I write this, we are in the middle of the biggest crisis we have seen in our lifetimes, the COVID-19 pandemic. So far, it has created unprecedented socioeconomic disruption, fear and the tragic loss of human life. The collapse in economic activity this time is likely at a level unseen in previous recessions. The exit path remains a vaccine and till then it is likely to be a bumpy ride with a continuous stop-start rhythm and strict health protocols.

Having said that, most of us have lived through economic crises before. Each time the agony has been different but each time we have adapted and bounced back. I am hopeful that like all previous crises, the COVID-19 calamity will also pass and in time, a fresh wave of business energy will be unleashed. The next few months will be critical for organizations as they build their resilience in order to persist, resurrect their businesses and master the new business environment.

The Indian economy continued to be a bright spot on the global economic scenario in financial year 2019-2020. The Government is taking more and more initiatives to kick-start and sustains the growth momentum in business and industry. However the Indian Corporate Sector will take some more time to get back on a high growth trajectory as it is still recovering from the prolonged slowdown of past years.

I take this opportunity to express my sincere gratitude for the immense support and guidance received by your company. With above background and considering the way ahead, I am confident that your company will continue its robust growth path in the coming years. I would also like to express my heartfelt thanks to all our shareholders, customers, Banks, Government of India, Government of West Bengal, Government of Karnataka, suppliers, partners, employees and all other stakeholders for their unstinted and continued support and look forward to the same at all time in the future.

I remain as always, grateful to you our dear shareholders for continued patience and confidence in the Company.

Yours sincerely

Kirti Kantilal Mehta
Chairman

MANAGEMENT'S DISCUSSION AND ANALYSIS

Global Economy

The global economies are facing a synchronized slowdown, resulting from a variety of factors affecting the world. The outbreak of coronavirus 2019 (COVID19) has globally disrupted people's lives, interrupted businesses and jeopardized decades of development progress. According to The World Economic Outlook (WEO) update, global economic growth has been downgraded to 2.4% in 2019, which is its slowest pace since the global financial crisis of 2008. The decline in growth is the outcome of rising trade tensions between large economies, rising uncertainty surrounding trade and geopolitical issues; along with individual macroeconomic problems such as low productivity growth in emerging economies and aging population in advanced economies. To add to the existing issues, the pandemic outbreak has worsened the economic environment. The crisis is the result of the needed containment measures that forced policymakers to take extreme steps in the form of huge fiscal stimuli to encourage economic activity.

With considerable uncertainty around the world due to the pandemic, its macroeconomic fallout, and the associated impact on financial and commodity markets, the World Economic Outlook has estimated global growth to decline by 5.2% in 2020 before recovering by 4.2% in 2021. In China, the containment efforts such as quarantine and widespread restrictions on travel, have resulted in unplanned delays in restarting factories after the Lunar New Year holiday and sharp cutbacks in many service sector activities. With the existing slowdown visible across the globe, the pandemic is expected to have severe consequences on the world economy leading to lay-offs, reduction in capex by companies and delay in discretionary purchases. The economic activity in U.S. and Eurozone economies is expected to fall sharply as these economies undertake measures to contain the outbreak

Indian Economy

The Indian economy decelerated sharply in the fourth quarter at 3.1%, lowest in almost 17 years, after growing at 4.1% in Q3 FY20. As per the Central Statistics Office (CSO), GDP growth for FY20 stood at an 11-year low of 4.2% lower than the government projection of 5.0% in both first and second advance estimates. The country's fiscal deficit worsened to 4.59% of GDP, much beyond the targeted 3.8% of GDP and expected to worsen further with the dip in tax collection and revenue shortage due to the subsequent effects of lockdown on the economy. The core sector contracted by a record 38% in April as the lockdown hit all eight infrastructure sectors.

According to the CSO, country's factory output growth contracted to 0.7% in FY20, as against expansion of 3.8% in FY19. Consumer durables output, an indicator of urban demand, contracted by 8.4% in FY20, compared with a growth of 5.5% in FY19. According to the Asian Development Bank, India's GDP growth is projected to contract by 4.0% in FY2021 before recovering sharply to 6.2% in FY2022, on the assumption of recovery from the pandemic in the second half of 2020. With the lockdown scenario, consumption and investments are expected to be severely impacted in the first quarter. The gross fixed capital formation is likely to decline with rising risk perception and uncertainty around the pandemic. RBI has cut the repo rate by 40 bps to 4.0% in May 2020, which is the lowest ever and rolled out a range of measures to preserve financial stability and counter the economic impact of COVID19. The central bank has undertaken open market operations and US dollar-rupee swaps to ensure adequate rupee and dollar liquidity during the recent global sell-off. While there is gloom in the near term with the unprecedented situation led by the outbreak, domestic demand will rebound strongly once the pandemic passes and full economic activity resumes.

The historical corporate tax cuts introduced in September 2019 are expected to encourage domestic and foreign private investments in the long run. Also, the alternative tax regime introduced in the latest budget is expected to increase household disposable income, thereby boosting private consumption, and potentially expanding the tax base. FY20 inflation stood at 4.8%, below the RBI's upper target limit and is expected to fall further in the current year with declining crude prices and slump in domestic demand, making the rate cuts more favorable. Prices for some manufacturers are likely to increase with supply disruption and rupee depreciation. The country's exports of goods and services are expected to improve once the global economies recover from the shocks of the pandemic. While the long term outlook looks robust for the country, a prolonged COVID19 pandemic would push the global economy into deep recession and further slow Indian growth.

Real Estate Sector

The Indian real estate sector has been trying to get back on its feet and come to terms with multiple reforms and changes brought in by demonetization, RERA, GST, IBC, NBFC crisis and the subvention scheme ban. While it was a tough task for the sector to align itself with these new regulations, the measures have been instrumental to bring transparency, accountability and fiscal discipline over the last few years. Prior to COVID19, the real estate sector was expected to grow to USD 650 billion and contribute around 13% of India's GDP by 2025 (from around 6-7% in 2017), according to ANAROCK Research. Over-reliance on NBFC funding led to severe funding issues after the IL&FS default, wherein RBI had asked NFBCs to bring down their exposure to real estate sector. The share of NBFC loans to real estate which plunged to 46% of total credit to real estate sector in 2018-19, is expected to further come down. Current coronavirus outbreak is expected to derail the sector's growth momentum in the short term due to its impact on the overall slowing economy.

According to industry estimates, 90% of the workforce employed in real estate and construction sector is engaged in the core construction activities, while the rest 10% is involved in other ancillary activities. Since majority of the workers are immigrants, labor shortage could possibly pose a major challenge for the sector post COVID19 lockdown. While the pandemic outbreak could temporarily disrupt the

sector, there are certain green shoots in this adverse situation. The recent liquidity crisis has worsened the situation for smaller players which were anyway finding it difficult to adhere to new norms laid by RERA leading to a new wave of consolidation. Industry consolidation is likely to get accelerated further with the COVID19 outbreak and many weak players may cease to exist. Larger established players with strong access to funding are expected to gain market share. Also, the current situation is expected to open up a lot of business development opportunities for well capitalized developers.

Residential Real Estate Market

The Indian residential sector has been grappling with subdued demand for the past few years and the recent developments (ongoing impact of NBFC crisis and COVID19) have made things even more difficult for the sector. According to the property research firm Knight Frank, the total sales volume in the top eight cities increased by a modest 1% in CY2019 to 245,861 units as the sector continued to be impacted by the prolonged crisis in the NBFC sector. While certain measures such as the consecutive rate cuts by the RBI, the reduction of GST rates to 1% for affordable housing and 5% for others and the setting up of an Alternative Investment Fund (AIF) have helped home-buyer sentiments, they've had little impact on the sales for the sector.

New launches increased by 23% to 223,325 units across eight cities including Mumbai, Bengaluru and the National Capital Region (NCR). This came after a sharp jump in launches in CY2018 (+76% YoY) when the sector started coming to terms with the RERA regime. Ahmedabad witnessed the sharpest growth in new launches at 176%, followed by Hyderabad which recorded launch growth at 150%. The growth in residential prices in most of the top eight cities of India has been below retail inflation growth since CY2016, with the gap only widening since H1 2016. Hyderabad has been the only market to beat the trend and register residential price growth over the retail inflation level.

According to an affordability benchmark study by Knight Frank India, ideal affordability is identified at 4.5 times the average annual household income in a city and except for Mumbai, NCR and Hyderabad, all other markets are below the ideal affordability benchmark. While Mumbai continues to be the most expensive housing market with affordability index of 7.1, it has seen affordability of homes significantly improve from 11 times the annual household income in 2010. NCR and Hyderabad are marginally above the benchmark affordability with scores of 5 each, while Bengaluru has an affordability index of 3.9. The affordability levels have risen the most for Pune at just 2.5 times of their average household incomes.

COVID19 Impact on Residential Real Estate

COVID-19 has severely hit residential real estate business and the sector has come to a standstill in the short term. While the sector was coming out of the woods after the liquidity crisis initiated by the IL&FS fiasco and subsequent fallouts of various financial institutions, the pandemic outbreak could further impact residential sector.

Drop in new launches and slump in sales volumes

Amidst the current COVID-19 outbreak, the sector is likely to witness major disruptions due to construction delays and financing issues. Also, many prospective customers could consider postponing their decisions either to stay away from the project sites or in the expectations of a price correction. According to ANAROCK Research, new launches could decline by 25%-30% and sales volume could decline by 25%- 35% in CY2020.

Accelerated Consolidation

Post Demonetization, RERA and Liquidity crisis, the survival of the fittest and financially strongest has become the new norm in the Indian real estate sector and well capitalized & established players have gained substantial market share over the years. This consolidation phase is likely to continue amidst the current COVID-19 outbreak and probably accelerate, as we emerge from this pandemic and many weak players may cease to exist.

Budget 2020 – takeaways

Budget 2020 did not have much to offer to the real estate sector except for extension of benefits for affordable housing by one year and concession in real estate transactions. It had no measures to boost the demand in non-affordable housing category or liquidity in the sector. Some of the key measures include

Interest deduction benefit on affordable housing

The Government in its attempt to boost affordable housing demand, proposed to extend additional tax benefit of INR 1.5 lakh on interest paid on affordable housing loans by one year till March 2021. The additional deduction is over and above INR 2 lakh which was introduced in the previous year's budget..

Tax holiday for Affordable housing developers

In order to encourage developers to focus on affordable housing projects, the Government extended the date of approval for these projects for availing tax holiday on profit earned by developers by one year till March 2021. The tax holiday which was being provided under section 80-IBA for approved projects during the period from June 1, 2016 to March 31, 2020 has been extended by a year.

Rationalization of capital gains tax on difference between circle rate and transaction rate

Earlier for real estate transactions, if the consideration value was less than circle rate by more than 5%, the difference was considered as income accruing to both the buyer and seller and hence taxable to both. In order to facilitate real estate transactions and provide relief to the sector, the government increased the limit from 5% to 10%.

New income tax regime for taxpayers

The Government introduced an alternative tax regime and in case an individual moves to the new tax regime, the tax exemption including deduction repayment of principal (for INR 1.50 lakh) and deduction on interest payable on housing loan has to be forgone, which is potentially negative for the sector.

OPPORTUNITIES

Consolidation

The Indian real estate sector has been in a consolidation phase from the past few years and picked up pace resulting from several reforms and disruptions in the sector. After the IL&FS default, NBFCs have been mandated by RBI to reduce their exposure to real estate sector, which has created funding issues for smaller real developers who anyway do not have access to bank funding. In such cases, these players face a double whammy – issues in construction funding on one hand and existing deal cancellations due to halt in construction activity on the other hand. This opens up new avenues of growth for organized developers with healthy balance sheets and execution track record to take over the projects of smaller developers at attractive valuations. It allows them to increase their portfolio offering and improve home-buyer confidence. The ongoing consolidation is expected to accelerate further amidst COVID19 and established, well capitalized players stand to gain further market share.

Affordable housing

Affordable housing continues to remain a significant opportunity for players and key focus area of government, as major short supply of housing lies in the economically weak and low-income segments. The government's constant push for affordable housing has shifted the focus from high-end and luxury segments to the affordable segment. According to ANAROCK research, during the past 5 years, the share of launches in the affordable segment across the top 7 cities of India, has risen from 35% in 2013 to 40% in 2019. This share is expected to increase further in the near future owing to subsidies provided by government to promote affordable housing. In Budget 2020, the government announced several measures to boost affordable housing. In its attempt to boost the affordable housing demand, the government has proposed to extend additional tax benefit of INR 1.5 lakh on interest paid on affordable housing loans by one year till March 2021. Also, in order to encourage developers to focus on affordable housing projects, the Government has extended the date of approval for these projects for availing tax holiday on profit earned by developers by one year till March 2021.

Digital Real Estate Sales

With the rapidly evolving marketing landscape, digital marketing tools have emerged as important tools for real estate companies to amplify their sales and reach out to customers globally. With a sharp focus on building consumer experience and connection through digital means, established brands will be ahead of the curve, giving a competitive edge to their business. According to the report 'Real Estate in a Digital Age', around 94% of millennials and 84% baby boomers searched for their future homes online. Social media platforms can be extensively used to promote listings, maintain relationships with existing customers and find new prospects. The recent lockdown due to COVID19 has forced real estate companies to focus much more on digital marketing and online platforms.

Monetary Easing

The real estate sector performance is closely linked to the country's economic fundamentals and monetary policies. The Reserve Bank of India cut its benchmark repo rate by 250 bps since February 2019 to 4.0%, which is the lowest ever repo rate in its attempt to support the slowing economy from further deterioration due to COVID19. Monetary easing initiatives are expected to provide an impetus to housing demand once the economy revives and encourage home buyers and real estate developers.

Threats & Challenges

Regulatory Hurdles

Unfavorable changes in government policies and the regulatory environment can adversely impact the performance of the sector. There are substantial procedural delays with regards to land acquisition, land use, project launches and construction approvals. Retrospective policy changes and regulatory bottlenecks may impact profitability and affect the attractiveness of the sector and companies operating within the sector.

Funding

The lending to real estate developers by NBFCs and HFCs fell by almost half to about INR 27,000 crore in FY19, triggered by the IL&FS crisis, according to a report by property consultant JLL. This NBFC crisis has further deteriorated the liquidity situation for smaller developers who had to resort to alternative funding in absence of long term loans from banks. While established developers with lean balance sheets continue to have funding access, many developers are facing significant liquidity pressure.

Segment-Wise or Product-Wise Performance

The Company deals in real estate development and construction and investing activities.

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of UNISHIRE URBAN INFRA LIMITED ("the Company"), which comprise the Balance Sheet as at 31st March, 2020 and the Statement of Profit and Loss, and Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2020, and its Loss, and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon,

Sl No.	Key Audit Matter	Auditor's Response
1	Deferred Tax Assets: Recognition of DTA with respect to accumulated business losses involves significant management estimate of future performance and timing of future taxable profit of the Company.	Principal audit procedures: Our procedures focused on evaluating the directors' determination of the estimated manner in which the timing difference will be realized by obtaining other audit evidence such as budgets approved by the Board for the next year, estimated cash flows and achievement of Board approved budgets with actuals in the prior periods.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. Also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that We have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, We give in the Annexure-A, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

ANNEXURE 'B' TO THE INDEPENDENT AUDITOR'S REPORT**Report on the Internal Financial Controls over Financial Reporting under Clause (i) of sub-section 3 of section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal controls over financial reporting of **UNISHIRE URBAN INFRA LIMITED** ("the Company") as of 31st March, 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls over Financial Reporting

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that We comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting. Assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial controls over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal

financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion considering nature of business, size of operation and organizational structure of the entity, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the Financial Statements for the year ended March 31, 2020**Note: 1 Background**

Unishire Urban Infra Limited is a Company registered with Registrar of Companies, West Bengal. The principal activity of the Company is real estate development and construction. Our company is also engaged in equity share trading and investing activities. The Company is a Public Limited Company whose shares are listed in BSE. Unishire is a well known name for its real estate projects in Bangalore.

Note: 2 significant accounting policies**(i) Basis of Preparation of Financial Statements:**

The financial statements are prepared under the historical cost convention, on the accrual basis of accounting to comply in all material with the applicable accounting principles in India, the mandatory Accounting Standards ('AS') as prescribed under Section 133 of the Companies Act, 2013 ('the Act'), read with rule 7 of the Companies (Accounts) Rules, 2014, the relevant provisions of the Act, the guidelines issued by the Securities and Exchange Board of India ('SEBI') and the Companies Act, 1956 to the extent relevant.

(ii) Use of estimates

The preparation of the financial statements, in conformity with generally accepted accounting principles in India, requires that the Management makes estimates and assumptions that affected the reported amounts of assets and liabilities, disclosure of contingent liabilities as at the date of the financial statements and the reported amount of revenue and expenses during the reporting period. Actual results could differ from those estimates. Any revision on accounting estimates is recognized prospectively in current and future periods

(iii) Fixed Assets

Tangible Assets: Tangible assets are stated at their cost of acquisition or construction less accumulated depreciation. Cost includes inward freight, duties, taxes and expenses incidental to acquisition and installation or construction, net of CENVAT and VAT credit, where applicable. The cost of the fixed assets not ready for their intended use before such date, are disclosed as capital work-in-progress.

Intangible Assets: Intangible assets are stated at cost of acquisition less accumulated amortization.

(iv) Depreciation / amortization

In respect of fixed assets during the year, depreciation/amortization is charged on Written Down Method as to write off the cost of the assets over the useful lives.

(v) Investments

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as Current Investments. All other Investments are classified as Non Current Investments. Non Current Investments are stated at cost. However, in case of other investments, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments. Current Investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. In case of unquoted securities, where fair market value is not available, lower of break-up value or cost is considered. On disposal of an Investment, the difference between its carrying amount and net disposal proceeds is charged to the statement of profit and loss.

(vi) Inventories

Inventories are stated at lower of the cost or net realizable value. Cost is determined on weighted average basis.

(vii) Recognition of Income and Expenditure:

Revenue is recognized and reported to the extent it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. Interest Income is recognized as and when the same has accrued on time proportion basis and company's right to receive interest is established. Dividend Income is recognized when right to receive the same is established by the reporting date

(viii) Employees Retirement & Other Benefits

Short term employees' benefits are recognized in the period in which employee's services are rendered.

(ix) Income Taxes

Income tax expense is aggregate of current tax (i.e. amount of tax for the period determined in accordance with the income tax law), deferred tax charges or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the period) borne by company. Current tax expense is recognized on an annual basis under the taxes payable method, based on

the estimated tax liability computed after taking the tax credit for the allowances and exemption in accordance with the Income Tax Act, 1961.

Deferred Taxation

The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognized using the tax rates that have been enacted or substantively enacted by the balance sheet date. Deferred tax assets are recognized only to the extent there is reasonable certainty that the assets can be realized in future; however, where there is unabsorbed depreciation or carried forward losses under the taxation laws, deferred tax assets are recognized only if there is virtual certainty of realization of such assets. Deferred tax assets are reviewed as at each balance sheet date and written down or written up to reflect the amount that is reasonably/ virtually certain (as the case may be) to be realized.

(x) Earning per Share

The Company reports basic and diluted earnings per share in accordance with Accounting Standard 20 - Earnings per Share, as prescribed by the Rules. Basic earnings per share are computed by dividing the net profit after tax attributable to the equity shareholders for the year by the weighted average number of equity shares outstanding for the year. Diluted earnings per share reflect the potential dilution that could occur if securities or other contracts to issue equity shares were exercised or converted during the year. Diluted earnings per share have been computed using the weighted number of equity shares and dilutive potential equity shares outstanding at year end

(xi) Provisions and Contingencies

The Company creates a provision when there is a present obligation as a result of a past event and it is probable that an outflow of resources would be required to settle the obligation, and in respect of which a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made. Provisions are reviewed at each balance sheet date and are adjusted to reflect the current best estimates. A contingent liability is disclosed unless the possibilities of an outflow of resources embodying the economic benefits are remote. Contingent Assets are neither recognized nor disclosed in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the assets and related income are recognized in the period in which the change occurs.
